

School Board Nominations May 2023

Linley Williams -

My name is Linley Williams. I have had 2 children at the school, Monique Williams who graduated in 2017 and Brendon Williams who in in year 12 in the Engagement Centre. I have a background in science working as a Laboratory Technician for 15 years. I presently work in Aged care. I have been on several sporting committees over the years. I have been a member of the P&C for the past 10 years being vice president and now I am secretary. I believe that our children need many options for their education and I am keen to see a diversity of paths ranging from academic to vocational opportunities made available to our students. I have seen many improvements made in the years I have been at the high school and I am keen to see continued improvements and advancements and feel being on the P&C and School Board are a great way of being able to be aware and be a part of achieving these. Parents are a great source of information on what is needed for students and I feel it is important to have a say in the direction of the school.

Kathlin Brajkovich -

My name is Kathlin Brajkovich, I'm the mum to three sons that have attended Eastern Hills Senior High School. Two that have graduated and one son currently in year 10. My husband and I are focussed on being apart of our son's education and that is why I am on the P n C and have been a board member for the past two years. I work as a Disability Support Worker during the day.

Ben Dadd -

My name is Ben Dadd, I have two children at ESHS in both Year 11 and 12. I have a little school board experience with Chidlow Primary school. I was their board chairman for 3 years and continue to serve on their board as a community member. My children sit at the extreme ends of the academic spectrum, my youngest, requires special needs support and my eldest, is chasing university entrance. Both my children are on their own, polar opposite paths and their experiences at ESHS reflect this divergence. I think our families experience with ESHS could offer value to conversations about school direction and parent communication.
